

Mark Little retired from GE in 2015 after a 37-year career. A company officer for 22 years, Mark served as a senior leader running both technology teams and multi-billion dollar global businesses. His last role at GE was Senior Vice President/Director of GE Global Research and Chief Technology Officer of GE.

Mark is engaged in business as a Director of Analog Devices, a director of two Special Purpose Acquisition Companies, a Venture Partner at the Material Impact Fund, and as a director of four startup companies. He is also an advisor to Energy Impact Partners.

Mark is active in his community as President of The Little Family Foundation, Chairman of the Board of Ellis Medicine, President of the Board of Rise High, a STEM program for Schenectady youth, and Director of Better Community Neighborhoods, an affordable housing organization. He and his wife, Terri, led the campaign to build the new Boys & Girls Club in Schenectady. Mark is also a Trustee of Rensselaer Polytechnic Institute.

Mark holds bachelor's and master's degrees in mechanical engineering from Tufts and Northeastern universities, respectively, and in 1982 earned a Ph.D. in mechanical engineering at Rensselaer Polytechnic Institute.
